

I believe the no-call laws need to be made tougher. I continue to get calls where Caller ID is blocked and by automatic dialers/recorders. Changing the call back time on former customers to 18 months is insane. Why would I want calls to continue from a company that I no longer do business with? I still get calls from former business's I dealt with after asking them NOT to ever call me again. This system of do not call lists needs to work better and have stronger penalties..... not the other way around.
